## Green Tourist Supporter project by Travel Industry Management

Kaewta Muangasame

TIM Lecturer / Project Manager of TIM Green tourist supporter

Travel Industry Management Division (TIM) has organized the special event under the concept of Green Tourist Supporter: **“New lifestyle why We Go Green”**. The purpose was to raise the awareness of 'Stop Global Warming for MUIC community'.

The event was held on Tuesday 21st and Wednesday 22nd October 2008.

TIM students organized an event at the canteen area by setting up a number of activities such as exhibition, games, showing the video on the "Cultural Adventure Tour", Banana Can Do Project, Coconut for Green Tourism, giving free varieties of local products, selling hand-made Thai sweets and recycle products and raising donation to save coral reefs in Phuket with Green Fins Thailand. In addition, participants were invited to be "green tourist" who concern about environmental-friendly issues while they are traveling.

As a result, we have transferred the amount of 4,216 baht to Greenfins account for donation. We hope that this money could help protecting coral reefs in some way.
